Experience

Full Stack Developer – Extended Leaf

Dec 2024 – Present

- Working on live client projects, handling both frontend and backend development.
- Implemented secure **payment gateway integrations** to enable seamless transactions.
- Built and maintained **RESTful APIs** for efficient communication between frontend and backend systems.
- Contributed to scalable and responsive UI development using **React.js**, ensuring a smooth user experience.
- Collaborated closely with the team to debug, deploy, and optimize web applications in a real-world environment.

Projects

Medium Clone

[Live Demo](#) 

- Implemented user authentication, enabling sign-up and sign-in through **email** or **Google**, using **Firebase**.
- Enabled users to read and post blogs with seamless image uploads to **Cloudinary**.
- Integrated **Editor.js** for a modern, user-friendly blog editing experience.
- Developed functionalities for users to manage their blogs and delete their accounts when needed.
- Created a notification system that alerts users about **likes**, **comments**, and **replies to comments**, with the ability to filter notifications based on these categories.
- Enhanced the user interface with smooth and interactive animations using **Framer Motion**.

Uber Clone

[Live Demo](#) 

- Developed a full-stack ride-booking platform inspired by Uber.
- Implemented user authentication and location-based ride requests.
- Enabled drivers to accept/reject rides and view route details in real-time.
- Integrated Google Maps API for geolocation, route tracking, and directions.
- Designed a responsive and interactive UI using **React.js** and **Framer Motion** for smooth animations.
- Managed backend functionality with **Node.js** and **Express.js**.

Education

Lakshmi Narain College Of Technology

Oct 2020 – June 2024

Bachelor of Technology in Electronics and Communications

CGPA: 8.6/10

Skillset

Programming Languages: Java, SQL, Javascript

FrontEnd technologies: Html, Css, Javascript, React js, Framer motion

BackEnd Technologies: Node js, Express js

Databases: mySql, MongoDB

Soft Skills: Communication, public speaking

Certifications

- Certification in *The Complete Java Development Bootcamp* -Udemy
- Certification in *SQL for Beginners: Learn SQL using MySQL and Database Design* -Udemy
